

# *The House of Representatives State of Hawaii*

hereby presents this certificate to

## **JET PRO, INC.**

WHEREAS, JET PRO, INC. is an air freight logistics company that specializes in safe and environmentally-friendly shipping methods for perishable and non-perishable foods from the mainland to Hawaii; and

WHEREAS, established in 1986, JET PRO, INC. has led the air freight industry in promoting food safety and environmentally-friendly technology for over thirty years; and

WHEREAS, in 2017, JET PRO, INC. patented a new technology known as the "Pro Pod Technology" – the air freight industry's first thermostat-controlled, refrigerated container, designed to protect the cold-chain while in the air and on the airport tarmac and controlling its temperature at all times, including during flight delays, thereby extending the shelf-life of foods and keeping food safe for Hawaii consumers; and

WHEREAS, more importantly, the Pro Pod Technology eliminates the use of wasteful shipping practices such as the practice of utilizing silver bubble wrap and gel ice packs, thereby preventing these single-use products from being dumped in Hawaii's already over-used and strained landfills; and

WHEREAS, in 2018, this reusable pod and refrigeration technology was used exclusively by JET PRO, INC. and Hawaii Foodservice Alliance LLC in preventing two million square feet of plastics, the equivalent of thirty-five football fields, and over five hundred pounds of glycol from gel ice packs from being dumped in Hawaii's landfills, while also maintaining the safe delivery of perishable and non-perishable foods to Hawaii; now, therefore,

BE IT RESOLVED by the House of Representatives of the Thirtieth Legislature of the State of Hawaii, Regular Session of 2019, that this body hereby recognizes and commends JET PRO, INC. for their innovative leadership and committed service to the people of Hawaii and extends its warmest aloha and best wishes for continued success in all future endeavors.
